

Lucy Johnson

Lucy Johnson is the Consolidated Processing Center Security Manager for Raytheon's Intelligence & Information Systems (IIS) headquarters Garland, TX where 80% of the employees are cleared. Lucy's career began 20+ years ago in Texas, until she relocated to the east coast where she supported several Raytheon programs at various customer locations for 10 years. She left the east coast in 2005 to fulfill a two year assignment with Raytheon Australia and upon completion returned to Garland, TX where she currently has oversight for all IIS Personnel Security offices.
